

FARM PROD

Founded in Brussels in 2003, Farm Prod is a major collective of contemporary and urban artists whose strength lies in the diversity of its members and the coherence of their collective vision.

Trained together but each developing a distinct visual language, the artists move fluidly between street art, studio practice and experimental formats.

For this art fair, Farm Prod presents 4 of them - Guillaume Desmarets, Frédéric Lebbe, Nelson Dos Reis, Arnaud Debal - and their selection of works across various media and formats - paintings, works on canvas, paper and mixed techniques.

Through diverse techniques and personal universes, the 4 artists explore coexistence, collaboration and the poetic links between humans and nature, offering a snapshot of contemporary art today: accessible, multidisciplinary and deeply connected to themes of nature, collaboration and shared experience.
